Focus On Presentations : First Edition

Presenters are often vague about what they want to accomplish with their speech, or they have multiple objectives. To focus your presentation, you need to stick to a clear and single goal. The whole point of a speech is to change people's minds or behavior. That could mean you want them to: Approve your idea. Hire your business.

How to Focus Your Presentation: 7 Tips - Rob Biesenbach

In the first chapter of this book, the author, Robin Williams,

explains what a “Presentation” is and is not. When she described good and bad presentations, she brought back so many memories for me. That was just thinking about presentations that I made. Those I attended are another large batch that sprang up in my head.

Effective Presentations: Amazon.com

The best time to focus your presentation is during the brainstorming period before you’ve created an outline or even opened the computer. Brainstorming may sound like something tedious you were forced to do in school before you started actually working, but it’s an essential part of creating a presentation.

Keep the focus where you want it. If you are going to incorporate a graph or a quote into your presentation, be sure to have a slide with only the graph or quote, allowing you to speak about it to your audience and to use it as a reference. If you use an image, you should generally limit yourself to one image per slide. Cite your sources. For many of your presentations, you will be using outside sources.
