American farmers had been told to grow, lentils make their own fertilizer and tolerate variable climate conditions, so their farmers aren't beholden to industrial methods. Today, Oien leads an underground network of organic farmers who work with heirloom seeds and biologically diverse farm systems.

recounts the patient growth of Timeless Seeds, which is today a highly successful purveyor of heirloom organic lentils and specialty grains. The “renegade farmers” who rejected the chemical farming practices that dominated the region in Montana learned together to “farm down” - focusing on soil health as a precondition to crop health and community
