The Media City Media Architecture

At stake is a city that is continually redefined by the media and understood along the lines of McQuire's quite novel media theory. At stake is a vision of media, which are too ubiquitous in the multiplication of screens, surveillance and other devices/interfaces in private and public space to primarily function any more as representations.

The Media City: Media, Architecture and Urban Space ...

This erudite, forceful book argues that the redefinition of urban space by mobile, instantaneous and pervasive media is producing a distinctive mode of social experience. Media are no longer separate from the city. Instead the proliferation of spatialized media platforms has produced a media-
