UK fuel market review - RAC Foundation

UK Fuel Market Review The number of UK petrol stations has been declining at a steady pace since the late 1960s. This is due to a variety of reasons. Fuel retailing is a high fixed cost, low margin business where high volumes are required to break even.

UK fuel market review - RAC Foundation

Security of fuel supply concerns risk raising cost of motoring for millions. The 35 million drivers in the UK are increasingly at the mercy of international traders and global events as North Sea oil reserves shrink. In 2001 the UK's high oil production meant we could export 40% of it. This compares to a decade later, where 32% had to be ...

UK oil and road fuel review - RAC Foundation

UK Fuel Market Review While demand in China and India has been increasing in the past five years, it has been falling in the more mature markets of North America, Europe and the Pacific. This is partly due to technological advances making the transport sector, the largest user of petroleum products, more fuel efficient.
